Advocate

We gather passionate participants from well known companies, universities, start-ups, global tech infrastructure and more...

Our audience includes a global group of entrepreneurs, academics, engineers, neuroscientists, healthcare executives, investors, psychologists, practitioners and more.

Our 2018 conference had over **750 attendees**.

Every day, more TransTech companies are founded around the **world**, and we link them together -- anchored in Silicon Valley.

...who are deeply satisfied and inspired by our events.

“

Just wanted to thank you for a wonderful event - my brain is exploding from the quality content and connections. The event was well worth the investment and time and we look forward to working with you in the future.

– Shane Brethan, Hopelab (Sponsor)

I wanted to thank you both once more for the chance to attend the conference this weekend. To say I am mind-blown is an understatement, and I can't wait to talk through some of what I've learned and experienced. So much awe and gratitude to everyone who was a part of it!

– Attendee

The TTC is an extraordinary conference. In two days-time you will feel up to date, inspired, and connected with the most important figures in the field.

– Attendee

It was awesome. Coolest conference I've ever been to and was really excited to be a part of it. The crowd was great, and the amount of interaction was really amazing.

– Dr Bashar Badran (Speaker)

The TTC was in direct language way above (Everest size) every other comparable conference I've been to in the last 5 years. The 20-minute format was the perfect balance between the 5 minute speed date, 45 minute talk with a panelists.

– Phil Williams (Speaker)

Currently loving my Muse2 purchased at your event! I was so pleased I attended your event. It really opened my eyes to what's happening out there and made me immensely positive!

– Sean Peterson (IFC)

You can tell something special is happening there

– Jack Herrick, Founder WikiHow

You've found a way to bring together the visionaries and the doers

– Dimitri Grishin, Investor

The TTA program has offered so much material that it feels like the participants have gained the experience of going through several startups in just 4 weeks.

– Narek Kosmoyan, OMPlanet

TTA really cares for the humans who are driving the business, more than the business itself.

– Andrea, founder/Yana."

TTA is an amazing global community. The insights we gained from so many experts in just 4 weeks gave us new ways to view the business we are building and how we are building it.

– Keith Wakeman, CEO, SuperBetter
